

Pre-Plumb Dispenser Sump Service

PCI now offers professional pre-plumbed dispenser sump service on our entire line of quality dispenser sumps. Receive factory quality consistency through the use of CNC Machines, Controlled Environment, Professional Fiberglass Labor, Factory Testing & Massive OEM Buying Power.

PCI Pre-Plumb service was developed to help our customers control cost, standardize quality consistency and increase job performance. If you're constructing new stations this year, call PCI and let us help you provide a better quality product that could decrease your installation time.
