

RSA SERIES DISPENSER SUMPS

PCI's RSA dispenser sump is the most cost-effective fiberglass alternative to polyethylene dispenser sumps. With all the quality, features and benefits of the RSC Series, RSA fiberglass dispenser sumps are engineered to provide long-term leak protection at a competitive price.

ADJUSTABLE HEIGHT

Designed and engineered to allow up to 6" of field adjustment helps ensure proper slope once penetration fittings have been installed off location.

WIDE-BODY DESIGN

Allows ample space for up to 4 Pass-Thru plumbing configurations in a single sump while our tapered top fits inside the most narrow island forms.

DUAL CONDUITLESS ENTRY

Conduit mounting channel is engineered directly into both ends of the steel frame to allow electrical entry in the bottom of the dispenser without penetrating the sump wall.

SINGLE PIECE CONSTRUCTION

Eliminates any seams and provides less places for water penetration.

1" COMPOSITE RAINLIP

Prevents surface water from entering the sump and offers better protection against rust and corrosion than metallic rainlips.

UNIVERSAL STABILIZER BARS

Universal stabilizer bars with 3-axis adjustment accommodate multi-product dispensers without displacing product lines and ensure proper load transfer in case of an impact from any direction.

100% FIBERGLASS

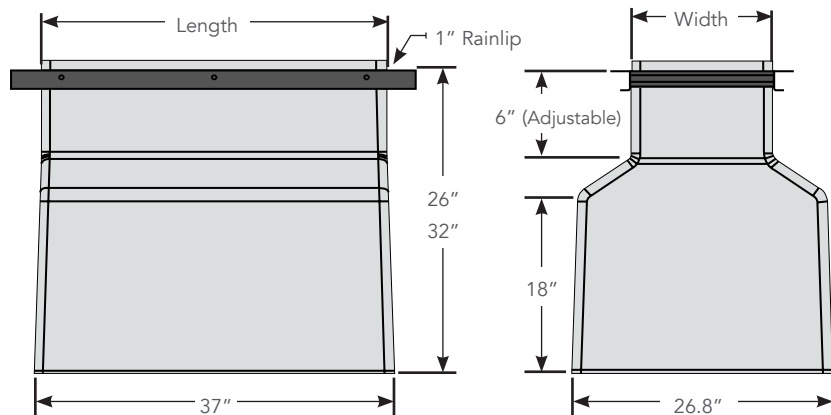

100% high quality, non-corrosive fiberglass provides long-term reliable containment from fuel exposure without voiding warranty, warping, cracking or becoming brittle.

'BRITE-WHITE' INTERIOR

Our signature 'Brite-White' interior reflects light for better visibility and makes identifying leak points easier.

Powder Coated Shear Valve Stabilizer Assembly Kit
(Sold Separately)

Dispenser Model	RSA Series	Width	Length	Stabilizer Kit
Gilbarco Encore	RSA174360	17.5"	36"	SVU-L
Wayne Ovation	RSA146360	14.75"	36"	SVU-L
