

PRE-PLUMBED SERVICE DISPENSER SUMPS

PCI's Dispenser Sumps are available with completely customizable pre-plumb service built to customer's specifications. Our pre-plumb dispenser sumps are built in a production line process to ensure reliability and cut down on potential installation errors.

CUSTOMIZABLE

Make your equipment selections, and we will handle the installation. All that's left for installers to do is make the final pipe connections.

PARTIAL OR FULL PRE-PLUMB AVAILABLE

Depending on the sites installation needs, we can create a full or partial pre-plumbed sump.

FACTORY TESTED

Full pre-plumb dispenser sumps are completely hydrostatically and pressure tested prior to shipment eliminating the need for any additional field labor.

FULL PRE-PLUMB

Shear Valve to Penetration

- Available for Fiberglass Pipe

PARTIAL PRE-PLUMB

Shear Valve to Flex Connector

- Available for Flex, Fusion and Fiberglass Pipe
