

TPP SERIES NEW CONSTRUCTION FITTING

The Testable Primary Pass-Thru (TPP) New Construction Penetration Fitting is an economical and long term solution. Its thick fiberglass construction ensures it will withstand the elements without deteriorating over time.

DUAL TEST PORT

The dual integrated test ports provide easy access and eliminate the need for a separate test boot, saving time, money and space.

UNIVERSAL FITTING

Designed to accommodate RTIIA and LCX pipe.

CONTAINS CONNECTIONS

Allows all primary and secondary connections to be inside the sump, eliminating the need for any external pipe joints and offers optimal servcability and peace-of-mind.

COST EFFECTIVE

PCI's penetration fittings are the most affordable fiberglass fittings on the market, with a similar cost to rubber or plastic fittings.

PERMANENT BONDING

EP2A is used to bond fittings to fiberglass and steel. It has great gap filling properties and excellent sag resistance, making it a simple and dependable bonding solution.

LONG-TERM SOLUTION

100% fiberglass construction provides superior strength and ensures the fitting will withstand long-term exposure to all fuels, including ethanol. These can replace rubber or plastic boots.

PF-TPP-2F-U2

Part No.	Install	Pipe	ID	OD
PF-TPP-2F-U2	Flat Wall	2" LCX or 3" x 2" RTIIA	2.4"	7"
PF-TPP-2F-U3	Flat Wall	3" LCX or 4" x 3" RTIIA	3.6"	8"
