

MDS Series Dispenser Sump

The MDS Dispenser Sump is a modular stainless steel containment system designed specifically for commercial and industrial fueling applications. Built entirely from 304 stainless steel, the MDS Series delivers durable above-grade containment with flexible installation options and interchangeable frame configurations for a wide range of dispenser models and transition applications.

MODULAR DESIGN

Standard-size containment bases paired with interchangeable frames allow the MDS Series to adapt to multiple dispenser models and transition applications. Designed for pedestal, recessed, semi-flush, or flush mount installations to meet varying site requirements.*

BUILT FOR HARSH ENVIRONMENTS

All 304 stainless steel construction provides long-term durability and corrosion resistance for demanding above-grade fueling applications, including marinas, fleet fueling, aviation fueling, and other commercial and industrial sites.

WATER-TIGHT CONTAINMENT

A gasketed seal between the sump and frame helps prevent water intrusion while protecting internal equipment and maintaining clean containment.

MULTIPLE SIZES & FRAME CONFIGURATIONS

Available in small (2' x 3'), medium (2' x 4'), and large (3' x 4') containment sizes with interchangeable frame options for Gasboy Atlas X, PMC Commander and Fuelhouse, Wayne Select, and more.**

RP1000 COMPLIANT DESIGN

Transition sump models provide adequate space for required RP1000 equipment while allowing tool-free access for quick inspection and maintenance of valves and hoses.***

* Requires optional flush mount bracket (HDW-MDS-FMB)

** See product drawings for complete offering

*** Optional locking system available to restrict access

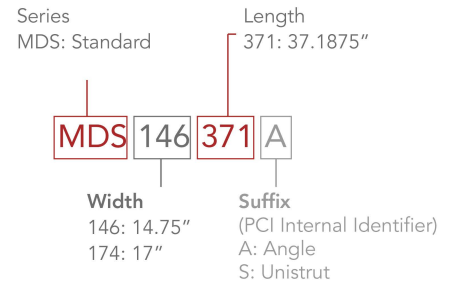

MDS SERIES DISPENSER SUMPS

304 stainless steel base & frame; hardware included

PART NUMBER	DISPENSER MODEL	BASE SIZE
MDS102164	Select S1 Pedestal	Small
MDS120240	Atlas	Small
MDS120290	Bennett 3000	Small
MDS132217	Commander	Small
MDS144270	Atlas X	Small
MDS144270-HR	Atlas X with Hose Reel	Medium
MDS154284	Reliance / Select	Small
MDS260240	Fuelhouse	Large
